The subject is totally understood because of Farzana ma'am. Ma'am is always there for us ,her guidance, flexibility and way of teaching has definitely boosted my confidence and brought about greater interest in the subject.
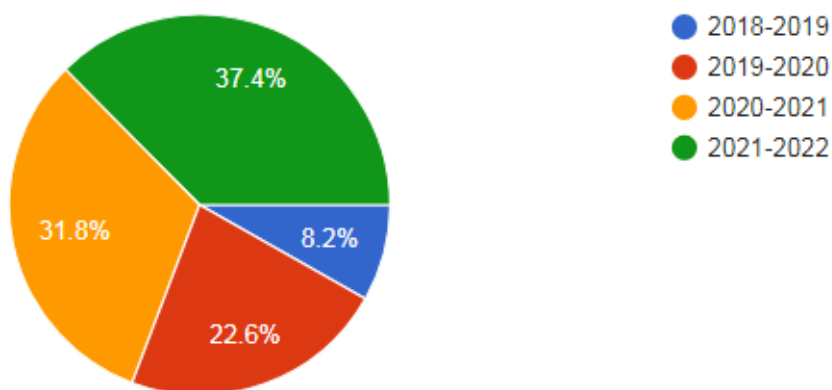

Analysis of Student Feedback

Feedback was taken from students on their curriculum. Maximum students found the curriculum easy & the instructions were easy to follow. They found that the study material & references of course was easily available by the mentor and in the library. Students expressed their satisfaction in understanding most of the subjects and few subject proved helpful in developing their personality.

The overall feedback of the students regarding the department was very good. They had appreciated the facilities available in the department and the efforts of the mentors. Based on the students' request and suggestions, initiatives were taken to set up software project development sessions. Students suggested for more industrial knowledge. Head of the department suggested the final year students to prepare for placement, aptitude and technical sessions.

Based on their feedback, the lab sessions were refined for their programming practice and were included thus enabling them to be innovative and come up with various students' projects.
